ABSTRACT:

PROBLEM TO BE SOLVED: To provide a dust collecting tool capable of preventing dust or the like from stirring up and securely collecting dust or the like even in a narrow place.

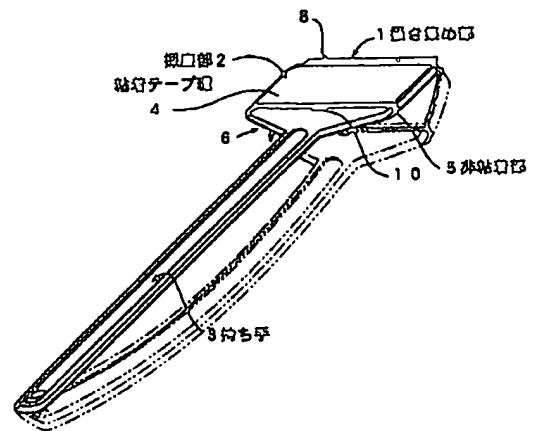

SOLUTION: A brush-like, sawlike, or spatula-like collecting section 1 is disposed at the front end of the dust collecting tool. And a dust catching section 2 having adhesiveness provided continuously with the collecting section 1. An elastic handle is formed continuously with the catching section 2. In the catching section, an adhesive tape ring having a certain width wound several times while turning the adhesive face outside is kept flat and fixed.
